DETAILED ACTION

Information Disclosure Statement

The PTOL 1449s of 09/26/05 & 05/07/08 have been received, reviewed and considered.

Response to Arguments

1. Applicant's arguments, see the remarks, filed 05/07/2008, with respect to claims 1 and 8 have been fully considered and are persuasive. The 112, 2nd paragraph rejection of claims of 02/11/2008 has been withdrawn.

Allowable Subject Matter

2. Claims 1, 3-9 and 11-14 are allowed.

The following is an examiner's statement of reasons for allowance: The prior art of record does not teach nor render obvious the instantly claimed invention. There is no teaching in the art to perform the apparatus that is now claimed. The prior art of JP-07-010672 does teach a platinum crucible with a substance transparent in the visible and invisible regions under the seed crystal. However, the prior of JP-07-010672 does not teach the a crucible for a device for producing a block of crystalline material by directed crystallization, wherein the crucible has opaque side walls to infrared radiation and a, bottom transparent to infrared radiation, the bottom having, parallel to a direction substantially perpendicular to the bottom, much greater heat transfer properties than those of the side walls along said direction, as stated in the instant invention. There is no motivation in the art to change the prior art's teaching of to arrive at the instantly claimed process.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Felisa Hiteshew whose telephone number is (571) 272-1463. The examiner can normally be reached on Mondays through Thursday from 5:30 AM to 4:00 PM with Fridays off.
